➔ Air Freight

China → Tuzla · via SJJ air / Ploce transit · clearance by Indirect Taxation Authority of Bosnia and Herzegovina

Cargo handling on the China-Tuzla lane.

We move air freight cargo from South China into Tuzla through SJJ air / Ploce transit. Tuzla is north-eastern industrial city, which shapes the kind of cargo that moves on this lane and how it should be packed.

The clearing authority is Indirect Taxation Authority of Bosnia and Herzegovina. Historical dwell on this gateway is around 4-9 days, and it lengthens in Sep-Nov.

What the routing looks like in practice

Ploče in Croatia is the natural sea gateway and Bar in Montenegro the alternative, both followed by a road leg under transit. The single 17% VAT rate keeps landed-cost modeling simple compared with neighboring markets, but the two-country routing means two sets of documentation.

Air gateways used	SJJ (Sarajevo), BNX (Banja Luka)
Air transit, China to gateway	4–7 business days
Gateway serving Tuzla	SJJ air / Ploce transit
Inland leg to Tuzla	+1 day from the gateway
Typical clearance / dwell	4–9 days
Peak season to plan around	Sep–Nov

Import duty and tax position for Tuzla

Imports into Bosnia and Herzegovina are cleared by Indirect Taxation Authority of Bosnia and Herzegovina. The headline position is: VAT 17% flat; customs duty 0–15%. The de-minimis threshold is No practical de-minimis for commercial cargo.

Conformity is the part most first-time importers underestimate: Conformity requirements largely aligned to EU technical regulations. Getting this wrong is expensive because it usually cannot be fixed after the cargo has landed.

Restrictions and known friction points for Bosnia and Herzegovina: Transit through Croatia or Montenegro requires bonded movement documents. Customs valuation disputes are relatively common — keep supporting price evidence with the shipment.

Handling on the SJJ air / Ploce transit routing serving Tuzla.

Pre-shipment checklist for Tuzla

- Check the de-minimis position (No practical de-minimis for commercial cargo) against your invoice value before you decide how to split the shipment.
- Budget for the inland leg: +1 day beyond gateway clearance to reach Tuzla.
- Compare gross weight against volumetric weight ($L \times W \times H \div 6000$) — the higher figure is what gets billed on air and express.
- Book earlier than the transit time suggests during Sep–Nov, when space on this lane tightens.
- Use ISPM-15 treated pallets. Untreated wood is the most common reason otherwise-clean cargo gets held.
- Plan around the China-side windows too: Chinese New Year and Golden Week both compress capacity on the Bosnia and Herzegovina lane.

Frequently asked questions

How long does shipping from China to Tuzla take?

China to the Bosnia and Herzegovina gateway is 4–7 business days. On top of that, allow 4–9 days of clearance with Indirect Taxation Authority of Bosnia and Herzegovina and a +1 day inland leg to Tuzla.

What duty and tax will I pay importing into Tuzla?

Indirect Taxation Authority of Bosnia and Herzegovina applies: VAT 17% flat; customs duty 0–15%. The de-minimis position is No practical de-minimis for commercial cargo. Under a DDP arrangement these are pre-paid, so nothing is collected on arrival in Tuzla.

Can you deliver door-to-door in Tuzla?

Yes. Delivery to a Tuzla address is quoted as one figure covering freight, duty and tax owed to Indirect Taxation Authority of Bosnia and Herzegovina, and the +1 day inland leg. Confirm whether your consignee wants the goods at a warehouse, a marketplace fulfillment center or a shop front, because the last-mile requirement differs.

When is the busiest time on the China-Bosnia and Herzegovina lane?

Space and rates tighten around Sep–Nov, plus the China-side windows of Chinese New Year in January or February and Golden Week in early October. Book one to two weeks earlier in those periods.

How is the chargeable weight calculated for Tuzla?

We compare actual gross weight against volumetric weight — length × width × height in centimeters divided by 6000 for air — and bill the greater of the two, rounded up to the next kilogram. Light, bulky cargo is almost always billed on volume.

Can you ship batteries or sensitive cargo to Tuzla?

Yes. Battery cargo by air follows IATA PI 965–970 depending on how the cells are packed, and moves on certified channels via SJJ (Sarajevo), BNX (Banja Luka). Surcharges apply and the declaration has to be made before booking.

Checking the Bosnia and Herzegovina duty position yourself

Duty and tax figures on this page are planning estimates. The binding assessment is made by Indirect Taxation Authority of Bosnia and Herzegovina against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

Classification drives everything downstream: the same carton can attract very different duty depending on the heading it lands in, and the structure those headings come from is [the World Customs Organization Harmonized System](#). If your product sits near a boundary between two headings, resolve it before shipping rather than at the border.

On the air side, anything with a cell or a battery in it, plus liquids, powders, magnets and aerosols, is governed by [the IATA Dangerous Goods Regulations](#). Those articles are not refused outright, but they need to be declared at booking so the shipment is built correctly — declaring them late is the single most common cause of an air consignment being offloaded.

Watch: the process behind this route

This guide covers routing and clearance for Tuzla. The video below covers the wider shipping process that sits around it.
