China → Bhairahawa · via KTM air / Kolkata transit · clearance by Department of Customs, Nepal

Cargo handling on the China-Bhairahawa lane.

For buyers shipping into Bhairahawa, the practical question is not the ocean or flight time but what happens after arrival.

Bhairahawa is western border trade point; cargo enters through KTM air / Kolkata transit, and allow +1 day for the inland leg on top of clearance.

The clearing authority is Department of Customs, Nepal. Historical dwell on this gateway is around 5-12 days, and it lengthens in Aug-Nov.

How this lane actually runs

Nepal has two very different routings. Sea cargo normally moves to Kolkata or Haldia and then crosses at Birgunj under Indian transit rules, which is slow but cheap. The direct land crossings from Tibet at Rasuwagadhi and Tatopani are much shorter but have limited capacity and are weather- and policy-sensitive. Air via Kathmandu is the reliable option for time-critical goods.

Sea gateways used	Landlocked — via Kolkata/Haldia (India) or the Rasuwagadhi and Tatopani land crossings from Tibet
Sea transit, China to gateway	18-28 calendar days via Kolkata transit
Gateway serving Bhairahawa	KTM air / Kolkata transit
Inland leg to Bhairahawa	+1 day from the gateway
Typical clearance / dwell	5-12 days
Peak season to plan around	Aug-Nov

Duty, tax and clearance into Bhairahawa

Department of Customs, Nepal assesses duty and tax on cargo arriving for Bhairahawa consignees. Current regime: VAT 13%; customs duty 5-80% depending on commodity, plus excise on selected goods, with a de-minimis position of No practical de-minimis.

Conformity is the part most first-time importers underestimate: Import license for controlled goods; Nepal Bureau of Standards approval for regulated products. Getting this wrong is expensive because it usually cannot be fixed after the cargo has landed.

Restrictions and known friction points for Nepal: Indian transit adds a separate bonded movement and its own documentation set. Land crossings from Tibet close seasonally and during Nepali and Chinese holidays. Confirm the routing in the quote — the two options differ by weeks.

Handling on the KTM air / Kolkata transit routing serving Bhairahawa.

Before you book: Bhairahawa checklist

- Budget for the inland leg: +1 day beyond gateway clearance to reach Bhairahawa.
- Use ISPM-15 treated pallets. Untreated wood is the most common reason otherwise-clean cargo gets held.
- Ask for the HS code in writing from your supplier and verify the Nepal duty rate against it yourself.
- Declare lithium batteries, magnets, liquids and powders up front — retro-declaring after booking usually means re-planning the whole shipment.
- Get the conformity paperwork moving early: Import license for controlled goods; Nepal Bureau of Standards approval for regulated products.
- Plan around the China-side windows too: Chinese New Year and Golden Week both compress capacity on the Nepal lane.

Frequently asked questions

How long does shipping from China to Bhairahawa take?

China to the Nepal gateway is 18–28 calendar days via Kolkata transit. On top of that, allow 5–12 days of clearance with Department of Customs, Nepal and a +1 day inland leg to Bhairahawa.

What duty and tax will I pay importing into Bhairahawa?

Department of Customs, Nepal applies: VAT 13%; customs duty 5–80% depending on commodity, plus excise on selected goods.

The de-minimis position is No practical de-minimis. Under a DDP arrangement these are pre-paid, so nothing is collected on arrival in Bhairahawa.

Can you deliver door-to-door in Bhairahawa?

Yes. Delivery to a Bhairahawa address is quoted as one figure covering freight, duty and tax owed to Department of Customs, Nepal, and the +1 day inland leg. Confirm whether your consignee wants the goods at a warehouse, a marketplace fulfillment center or a shop front, because the last-mile requirement differs.

What documents does Department of Customs, Nepal require?

A commercial invoice with HS codes, a packing list, the bill of lading or air waybill, a certificate of origin where it lowers duty, and any product certification (Import license for controlled goods; Nepal Bureau of Standards approval for regulated products). We prepare and file these as part of the service.

When is the busiest time on the China–Nepal lane?

Space and rates tighten around Aug–Nov, plus the China-side windows of Chinese New Year in January or February and Golden Week in early October. Book one to two weeks earlier in those periods.

How is the chargeable weight calculated for Bhairahawa?

We compare actual gross weight against volumetric weight — length × width × height in centimeters divided by 6000 for air — and bill the greater of the two, rounded up to the next kilogram. Light, bulky cargo is almost always billed on volume.

Checking the Nepal duty position yourself

Duty and tax figures on this page are planning estimates. The binding assessment is made by Department of Customs, Nepal against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

Classification drives everything downstream: the same carton can attract very different duty depending on the heading it lands in, and the structure those headings come from is [the World Customs Organization Harmonized System](#). If your product sits near a boundary between two headings, resolve it before shipping rather than at the border.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

Watch: the process behind this route

This guide covers routing and clearance for Bhairahawa. The video below covers the wider shipping process that sits around it.
