China → Tunis · via TUN air / Rades sea · clearance by Douane Tunisienne

Cargo handling on the China-Tunis lane.

We move freight cargo from South China into Tunis through TUN air / Rades sea. Tunis is capital and the main commercial market, which shapes the kind of cargo that moves on this lane and how it should be packed.

On the destination side, Douane Tunisienne handles clearance; budget 5-12 days of dwell before the cargo is released.

How this lane actually runs

Radès handles most container volume, generally with Asian cargo transshipped through Malta, Gioia Tauro or Marsaxlokk. Tunisia's offshore manufacturing regime, used heavily by textile and automotive suppliers, gives duty relief on inputs that are re-exported — confirm which regime the consignee is operating under before quoting.

Air gateways used	TUN (Tunis Carthage), MIR (Monastir)
Air transit, China to gateway	4–7 business days
Sea gateways used	Radès, Sfax, Bizerte
Sea transit, China to gateway	24–32 calendar days
Gateway serving Tunis	TUN air / Rades sea
Inland leg to Tunis	Same day from the gateway
Typical clearance / dwell	5–12 days
Peak season to plan around	Sep–Nov

What you will pay on arrival in Tunisia

Imports into Tunisia are cleared by Douane Tunisienne. The headline position is: VAT 19%; duty 0–36%, plus consumption tax on selected goods. The de-minimis threshold is No practical de-minimis for commercial cargo.

Conformity is the part most first-time importers underestimate: Technical control certificate for regulated goods; import authorisation for controlled categories. Getting this wrong is expensive because it usually cannot be fixed after the cargo has landed.

Restrictions and known friction points for Tunisia: Offshore versus onshore company status changes duty treatment entirely. Foreign-exchange authorisation can delay settlement. Technical control applies to electrical and consumer goods.

Handling on the TUN air / Rades sea routing serving Tunis.

Air, sea or overland into Tunis?

Mode	Transit to gateway	Best suited to
→ Air Freight	4-7 business days	time-critical, high-value and low-volume cargo
☐ Sea Freight	24-32 calendar days	volume cargo where cost per kilo matters more than speed

Transit shown is China departure to the Tunisia gateway and excludes the same-day inland leg to Tunis and 5-12 days of clearance.

Before you book: Tunis checklist

- Plan around the China-side windows too: Chinese New Year and Golden Week both compress capacity on the Tunisia lane.
- Budget for the inland leg: same-day delivery beyond gateway clearance to reach Tunis.
- Compare gross weight against volumetric weight (L×W×H ÷ 6000) — the higher figure is what gets billed on air and express.
- Photograph carton markings and seal numbers before departure — it makes any claim far easier to settle.
- Get the conformity paperwork moving early: Technical control certificate for regulated goods; import authorisation for controlled categories.
- Declare lithium batteries, magnets, liquids and powders up front — retro-declaring after booking usually means re-planning the whole shipment.

Frequently asked questions

How long does shipping from China to Tunis take?

China to the Tunisia gateway is 4–7 business days by air, 24–32 calendar days by sea. On top of that, allow 5–12 days of clearance with Douane Tunisienne and a same-day inland leg to Tunis.

What duty and tax will I pay importing into Tunis?

Douane Tunisienne applies: VAT 19%; duty 0–36%, plus consumption tax on selected goods. The de-minimis position is No practical de-minimis for commercial cargo. Under a DDP arrangement these are pre-paid, so nothing is collected on arrival in Tunis.

Can you deliver door-to-door in Tunis?

Yes. Delivery to a Tunis address is quoted as one figure covering freight, duty and tax owed to Douane Tunisienne, and the same-day inland leg. Confirm whether your consignee wants the goods at a warehouse, a marketplace fulfillment center or a shop front, because the last-mile requirement differs.

When is the busiest time on the China–Tunisia lane?

Space and rates tighten around Sep–Nov, plus the China-side windows of Chinese New Year in January or February and Golden Week in early October. Book one to two weeks earlier in those periods.

What documents does Douane Tunisienne require?

A commercial invoice with HS codes, a packing list, the bill of lading or air waybill, a certificate of origin where it lowers duty, and any product certification (Technical control certificate for regulated goods; import authorisation for controlled categories). We prepare and file these as part of the service.

Which port or airport does cargo for Tunis clear through?

Cargo for Tunis is routed via TUN air / Rades sea. Sea gateways for Tunisia are Radès, Sfax, Bizerte; air gateways are TUN (Tunis Carthage), MIR (Monastir). We pick whichever gives the shortest total door time for your address.

Checking the Tunisia duty position yourself

Duty and tax figures on this page are planning estimates. The binding assessment is made by Douane Tunisienne against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

If you want to sanity-check a duty figure yourself, start from the heading rather than the product name — [the WCO Harmonized System](#) is the underlying nomenclature, and [the WTO Tariff & Trade Data portal](#) holds the applied rates by country pair.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

On the origin side, export declaration and any commodity inspection requirement fall under [China Customs \(GACC\)](#); we handle that filing as part of the service, but the requirement is theirs, not ours.

Watch: the process behind this route

This guide covers routing and clearance for Tunis. The video below covers the wider shipping process that sits around it.

Sea Freight from China: How to import from China to your country via Ocean Shipping — SINO Shipping. Published on YouTube by a third party; we link it because it explains the process well, not because we produced it or endorse the provider.

Get a rate for Tunis

This lane is quoted per shipment rather than from a published rate card, because the landed cost depends on the commodity, its density, the conformity requirements above and the delivery point. Send the cargo details and we will come back with a full DDP figure.
