Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Cambodia is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Service Details

Nansha → Phnom Penh Container Shipping

Full-container sea freight from China to Cambodia, Nansha to Phnom Penh. A whole box is the right structure once your volume passes roughly 15 CBM, or as soon as the cargo is heavy, oversized or awkward to consolidate with anyone else's — below that threshold LCL usually wins on cost, above it FCL wins on both cost per CBM and handling risk. Transit runs 8–13 days port to port to port.

Port-to-port means exactly that: the rate ends at the Phnom Penh terminal gate. Typical dwell at destination runs 3–7 days before the box is available for collection, and that window sits outside the transit figure above. Origin haulage, export declaration, destination clearance, duty and delivery beyond the terminal are all quoted separately, so ask for a door figure if that is what you are comparing against.

Indicative rate. The figures below are benchmarked against current bookings on this lane group. They are a planning reference, not a firm offer — the booking rate is confirmed against the specific sailing when you enquire.

Rate by Container Type

- **20GP** — USD 350 per container
- **40HQ** — USD 650 per container

Ocean cargo on this lane discharges at Sihanoukville Autonomous Port and Phnom Penh Autonomous Port (river). Which one your container routes through is decided by the sailing we book rather than by you, and it moves the inland leg far more than it moves the ocean rate, so if your consignee sits closer to one of them say so at booking and we will bias the routing that way.

Delivery does not stop at the gateway. We run inland to [Sihanoukville](#), [Battambang](#), [Bavet](#), [Siem Reap](#) and [Phnom Penh](#) among others, and each of those has its own destination guide covering the port or airport it clears through, the realistic inland transit to add on top of the figures above, and the local clearance quirks worth knowing before you ship: see [all Cambodia destinations we](#)

cover, 6 in total.

```

```

' + esc(pretty) + '

```

```

' + '

```

```

Check digit valid. ' + who + '

```

```

' + '

```

```

' + 'Track on ' + esc(target.name) + " + '

```

```

' + '

```

```

' + (alts ? '

```

No result there? These free lookups cover the same box from different data sources:

```
' + alts + '
': ') + '
'; /* Copy the number so the carrier's own search box is one paste away. Deliberately not a deep link: these carrier sites are SPAs
whose query parameters change without notice, and a link that quietly stops prefilling looks like a broken tracker. */ var note =
box.querySelector('[data-copy]'); if (navigator.clipboard && navigator.clipboard.writeText) {
navigator.clipboard.writeText(res.num).then(function () { note.textContent = res.num + ' copied — paste it into the tracking box
that opens.'; }, function () { note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; }); } else {
note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; } } function wire(root) { var input =
root.querySelector('.cof-ot-input'); var btn = root.querySelector('.cof-ot-btn'); var box = root.querySelector('.cof-ot-out'); if (!input ||
!btn || !box) return; function go() { var num = normalize(input.value); if (!num) { input.focus(); return; } render(box,
analyze(num)); } btn.addEventListener('click', go); input.addEventListener('keydown', function (e) { if (e.key === 'Enter') {
e.preventDefault(); go(); } }); } function init() { var nodes = document.querySelectorAll('.cof-ot'); for (var i = 0; i < nodes.length;
i++) { wire(nodes[i]); } } if (document.readyState === 'loading') { document.addEventListener('DOMContentLoaded', init); } else
{ init(); } }();
```

Track your container to Cambodia

Ocean cargo is tracked by container number, not by a parcel barcode. Enter yours below: we check it is a valid number, identify the line that owns it, and take you straight to that line's tracking page for this ocean service.

Container number

A container number is four letters and seven digits, for example MSKU6090510. The last digit is a check digit, so a typo can be caught here rather than by an empty result on the carrier's site. We validate it in your browser — the number is not sent to us or to anyone else.

Additional Information

Booking Conditions and Destination Requirements

What you are buying on Nansha to Phnom Penh is the ocean leg and nothing else: the box on the vessel, from quay to quay. Pre-carriage in China, clearance into Cambodia, duty and tax, and the final delivery run beyond Phnom Penh are each priced separately. Ask for the door figure if you want to compare this against a DDP quote, because the two are not the same number.

- Priced per box in USD for 20GP and 40HQ, not per KG or per CBM — utilization is yours to optimize
- Transit 8–13 days port to port on Nansha to Phnom Penh, subject to the sailing booked
- Heavy and out-of-gauge cargo is core traffic here: machinery, steel, stone, building materials, project pieces
- Cut-off and free time attach to the specific sailing; demurrage begins the day free time expires
- Reefer, dangerous goods and out-of-gauge are priced case by case rather than from the card

- Clearance at destination is handled by General Department of Customs and Excise (GDCE); the consignee must be registered to import
- Destination conformity for Cambodia: CamControl inspection for regulated goods; Form E for duty preference

Two things decide whether an FCL booking runs cleanly. The first is container choice: a 40HQ carries roughly 76 CBM against a 20GP's 33, so where the cargo cubes out rather than weighs out, the bigger box is usually cheaper per unit even though it costs more per booking. The second is documentation — the packing list has to match what is physically inside, because General Department of Customs and Excise (GDCE) inspects against the declaration rather than against intent.

Paperwork closes more shipments into Cambodia late than freight does. Invoice, packing list and any certificate of origin have to describe the same goods at the same value, and the description has to be specific enough to classify — 'electronic parts' is not a description, it is an invitation to be examined.

Where these numbers come from

Duty and tax figures on this page are planning estimates. The binding assessment is made by General Department of Customs and Excise (GDCE) against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

Most landed-cost surprises trace back to classification rather than freight. [the WCO Harmonized System](#) defines the heading structure every customs administration builds on, and [ITC Market Access Map](#) will show you the duty a given heading attracts in this destination.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

For a wider view of how importing into Cambodia actually works — documentation norms, inspection behavior, the paperwork that tends to hold shipments — the [U.S. ITA guide to Cambodia customs regulations](#) is a useful independent read alongside our own lane notes.

China to Cambodia — Shipping Reference Data

Main sea gateways	Sihanoukville Autonomous Port, Phnom Penh Autonomous Port (river)
Destination customs authority	General Department of Customs and Excise (GDCE)
De-minimis / duty-free threshold	No practical de-minimis for commercial cargo
Import tax & duty regime	VAT 10%; duty 7-35%, with ACFTA and RCEP preference on a Form E
Local currency	KHR
Typical clearance / dwell time	3-7 days
Peak / busy season	Sep-Nov
Conformity & certification	CamControl inspection for regulated goods; Form E for duty preference

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Cambodia Sea Freight Checklist

- Ask whether the quote includes destination port charges in Cambodia or only ocean freight.
- Photograph the container number, seal, and loading process for insurance evidence.
- Verify the receiver's customs import capability in Cambodia for DDP terms before booking.
- Reserve loading space 5-7 days before the sailing cut-off for this route during peak season.

Frequently Asked Questions

How long does Sea FCL Port-to-Port from China to Cambodia take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 3–7 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Cambodia?

Clearance is handled by General Department of Customs and Excise (GDCE). The regime is: VAT 10%; duty 7–35%, with ACFTA and RCEP preference on a Form E, with a de-minimis position of No practical de-minimis for commercial cargo. Under DDP these are pre-paid, so nothing is collected on arrival.

What certification is needed to import into Cambodia?

For regulated goods, plan for: CamControl inspection for regulated goods; Form E for duty preference. Missing conformity paperwork is the most common clearance hold with General Department of Customs and Excise (GDCE), so confirm requirements for your HS code before shipping.

In what currency is this route priced and paid?

Freight is quoted and invoiced in USD; the destination-side currency is KHR. Payment is typically due before departure, and DDP means you settle the full landed cost once.

When does capacity tighten on the China–Cambodia lane?

Space and rates tighten around Sep–Nov, plus the China-side windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Book 1–2 weeks earlier in these periods.

What documents are required for customs clearance in Cambodia?

General Department of Customs and Excise (GDCE) typically requires a commercial invoice with HS codes, a packing list, the bill of lading/air waybill, a certificate of origin (may lower duty), and any product certification (CamControl inspection for regulated goods; Form E for duty preference). We file these under DDP.

Inland Delivery Coverage — Cambodia

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.

Note — these are reference guides, not quotes. The city pages describe routing, gateways and clearance for each destination. They do not carry rate tables. For pricing to any city listed here, use the rate table on this page or ask us for a quote.
