Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Côte d'Ivoire is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Service Details

Shanghai → Abidjan Container Shipping

Ocean freight from China to Côte d'Ivoire on a full-container basis, loading at Shanghai for discharge at Abidjan. Because the rate is per container, the way to lower your cost per unit is to fill the box properly rather than to negotiate the freight — a 40HQ at 85% utilization is almost always cheaper per CBM than a 20GP packed tight. Transit is typically 25–38 days port to port.

Port-to-port means exactly that: the rate ends at the Abidjan terminal gate. Typical dwell at destination runs 7–21 days before the box is available for collection, and that window sits outside the transit figure above. Origin haulage, export declaration, destination clearance, duty and delivery beyond the terminal are all quoted separately, so ask for a door figure if that is what you are comparing against.

Rate by Container Type

- **20GP** — quoted on request for the current sailing
- **40HQ** — quoted on request for the current sailing

If you already know roughly what you are moving, skip the rate maths. The [100 KG](#), [300 KG](#) and [500 KG](#) pages apply this tariff to a fixed consignment and show the result, including the point where stepping up a tier lowers your cost per kilo. The [China to Côte d'Ivoire Sea Freight Cost](#) page sets this channel against the alternatives, and [shipping from China to Côte d'Ivoire](#) is the full destination guide.

Powered by 17TRACK — supports 2,000+ carriers worldwide

```

'; return; } var pretty = res.num.substring(0,4) + ' ' + res.num.substring(4,10) + ' ' + res.num.substring(10); var who, target; if
(res.carrier) { who = 'The ' + esc(res.prefix) + ' prefix belongs to ' + esc(res.carrier.name) + ', so this box is theirs. Their
tracking page is the authoritative source for it.'; target = res.carrier; } else if (res.lessor) { who = 'The ' + esc(res.prefix) + '
prefix belongs to ' + esc(res.lessor) + ', a container leasing company rather than a shipping line. A leased box can sail with any
carrier, ' + 'so the number alone does not say who is moving it — use the universal lookup below, or check your bill of lading for the
line.'; target = FALLBACK; } else { who = 'We do not have ' + esc(res.prefix) + ' in our prefix list. The number itself is valid, ' +
'so the universal lookup below will route it to the right line.'; target = FALLBACK; } /* Always offer the universal lookups as well as
the carrier. A carrier site can be down, or simply not show a box that has not reached its network yet, and a dead end at that point
is what generates a support email. */ var alts = ''; for (var i = 0; i < FALLBACKS.length; i++) { var f = FALLBACKS[i]; if (target !==
FALLBACK && i === 0) { /* keep order, still show */ } if (f.url === target.url) { continue; } alts += '

```

- ' + esc(f.name) + ' — ' + esc(f.note) + '

```

'; } box.innerHTML = '

```

```

' + '

```

```

' + esc(pretty) + '

```

```

' + '

```

```

Check digit valid. ' + who + '

```

```

' + '

```

```

' + 'Track on ' + esc(target.name) + " " + '

```

```

' + '

```

```

' + (alts ? '

```

No result there? These free lookups cover the same box from different data sources:

```
' + alts + '
': ') + '
'; /* Copy the number so the carrier's own search box is one paste away. Deliberately not a deep link: these carrier sites are SPAs
whose query parameters change without notice, and a link that quietly stops prefilling looks like a broken tracker. */ var note =
box.querySelector('[data-copy]'); if (navigator.clipboard && navigator.clipboard.writeText) {
navigator.clipboard.writeText(res.num).then(function () { note.textContent = res.num + ' copied — paste it into the tracking box
that opens.'; }, function () { note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; }); } else {
note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; } } function wire(root) { var input =
root.querySelector('.cof-ot-input'); var btn = root.querySelector('.cof-ot-btn'); var box = root.querySelector('.cof-ot-out'); if (!input ||
!btn || !box) return; function go() { var num = normalize(input.value); if (!num) { input.focus(); return; } render(box,
analyze(num)); } btn.addEventListener('click', go); input.addEventListener('keydown', function (e) { if (e.key === 'Enter') {
e.preventDefault(); go(); } }); } function init() { var nodes = document.querySelectorAll('.cof-ot'); for (var i = 0; i < nodes.length;
i++) { wire(nodes[i]); } } if (document.readyState === 'loading') { document.addEventListener('DOMContentLoaded', init); } else
{ init(); } }());
```

Track your container to Côte d'Ivoire

Ocean cargo is tracked by container number, not by a parcel barcode. Enter yours below: we check it is a valid number, identify the line that owns it, and take you straight to that line's tracking page for this ocean service.

Container number

A container number is four letters and seven digits, for example MSKU6090510. The last digit is a check digit, so a typo can be caught here rather than by an empty result on the carrier's site. We validate it in your browser — the number is not sent to us or to anyone else.

Additional Information

What This Rate Covers — and What It Does Not

The Shanghai to Abidjan rate is ocean freight, port to port, for one full container. Origin haulage to Shanghai, export declaration, destination clearance, duty and tax for Côte d'Ivoire, and delivery beyond the Abidjan terminal all sit outside it and are quoted on request. That split is normal for FCL, and it is why a port-to-port figure should never be compared directly against a door-to-door one.

- Priced per box in USD for 20GP and 40HQ, not per KG or per CBM — utilization is yours to optimize
- Transit 25–38 days port to port port to port on Shanghai to Abidjan, subject to the sailing booked
- Heavy and out-of-gauge cargo is core traffic here: machinery, steel, stone, building materials, project pieces
- Cut-off and free time attach to the specific sailing; demurrage begins the day free time expires
- Reefer, dangerous goods and out-of-gauge are priced case by case rather than from the card

- Clearance at destination is handled by the national customs service; the consignee must be registered to import
- Destination conformity for Côte d'Ivoire: Pre-shipment conformity certificate

Utilization is where the real saving sits on this lane. The rate is per box, so every CBM you leave empty is money already spent — which is why it is worth planning the load before booking rather than after. On the compliance side, the national customs service assesses against your declaration, so the packing list and the commercial invoice need to agree with each other and with the cargo.

Every shipment needs a commercial invoice and a packing list that agree with each other, plus destination certification where the commodity requires it. The most common cause of delay we see is not the freight at all — it is a declared value or a goods description that does not match what is in the cartons, which turns a routine clearance into an inspection.

Where these numbers come from

Duty and tax figures on this page are planning estimates. The binding assessment is made by the national customs service against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

Most landed-cost surprises trace back to classification rather than freight. [the WCO Harmonized System](#) defines the heading structure every customs administration builds on, and [ITC Market Access Map](#) will show you the duty a given heading attracts in this destination.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

For a wider view of how importing into Côte d'Ivoire actually works — documentation norms, inspection behavior, the paperwork that tends to hold shipments — the [U.S. ITA guide to Côte d'Ivoire customs regulations](#) is a useful independent read alongside our own lane notes.

China to Côte d'Ivoire — Shipping Reference Data

Main sea gateways	the main commercial seaport
Destination customs authority	the national customs service
De-minimis / duty-free threshold	No practical de-minimis
Import tax & duty regime	Import VAT + duty 5-35%; PSI common
Local currency	USD
Typical clearance / dwell time	7-21 days
Peak / busy season	Oct-Dec
Conformity & certification	Pre-shipment conformity certificate

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Free 3D Loading Tools for This Sea Route

Côte d'Ivoire Sea Freight Checklist

- Photograph the container number, seal, and loading process for insurance evidence.
- Verify the receiver's customs import capability in Côte d'Ivoire for DDP terms before booking.
- Declare accurate gross weight — VGM misdeclaration delays vessels and triggers fines.
- Reserve loading space 5-7 days before the sailing cut-off for this route during peak season.

Frequently Asked Questions

How long does Sea FCL Port-to-Port from China to Côte d'Ivoire take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 7–21 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Côte d'Ivoire?

Clearance is handled by the national customs service. The regime is: Import VAT + duty 5–35%; PSI common, with a de-minimis position of No practical de-minimis. Under DDP these are pre-paid, so nothing is collected on arrival.

When does capacity tighten on the China–Côte d'Ivoire lane?

Space and rates tighten around Oct–Dec, plus the China-side windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Book 1–2 weeks earlier in these periods.

In what currency is this route priced and paid?

Freight is quoted and invoiced in USD; the destination-side currency is USD. Payment is typically due before departure, and DDP means you settle the full landed cost once.

What certification is needed to import into Côte d'Ivoire?

For regulated goods, plan for: Pre-shipment conformity certificate. Missing conformity paperwork is the most common clearance hold with the national customs service, so confirm requirements for your HS code before shipping.

How is the shipping cost on this route calculated?

We compare actual gross weight against volumetric weight ($L \times W \times H \div 6000$) and charge the greater, rounded up to the next kilogram, then apply the per-KG rate shown in the table above.

Shipping Côte d'Ivoire cargo by industry

This rate is for the lane. What decides whether the cargo arrives intact is the commodity — how it prices, how it must be packed and loaded, and which compliance step holds it at the border. These guides cover that per industry.
