Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Italy is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Service Details

Shanghai → Gioia Tauro Container Shipping

Ocean freight from China to Italy on a full-container basis, loading at Shanghai for discharge at Gioia Tauro. Because the rate is per container, the way to lower your cost per unit is to fill the box properly rather than to negotiate the freight — a 40HQ at 85% utilization is almost always cheaper per CBM than a 20GP packed tight. Transit is typically 26–34 days port to port.

Port-to-port means exactly that: the rate ends at the Gioia Tauro terminal gate. Typical dwell at destination runs 3–6 days before the box is available for collection, and that window sits outside the transit figure above. Origin haulage, export declaration, destination clearance, duty and delivery beyond the terminal are all quoted separately, so ask for a door figure if that is what you are comparing against.

Rate by Container Type

- **20GP** — quoted on request for the current sailing
- **40HQ** — quoted on request for the current sailing

Ocean cargo on this lane discharges at Rotterdam, Antwerp and Hamburg. Which one your container routes through is decided by the sailing we book rather than by you, and it moves the inland leg far more than it moves the ocean rate, so if your consignee sits closer to one of them say so at booking and we will bias the routing that way.

Track your shipment

Enter your tracking number below

Powered by 17TRACK — supports 2,000+ carriers worldwide

```

'; return; } var pretty = res.num.substring(0,4) + ' ' + res.num.substring(4,10) + ' ' + res.num.substring(10); var who, target; if
(res.carrier) { who = 'The ' + esc(res.prefix) + ' prefix belongs to ' + esc(res.carrier.name) + ', so this box is theirs. Their
tracking page is the authoritative source for it.'; target = res.carrier; } else if (res.lessor) { who = 'The ' + esc(res.prefix) + '
prefix belongs to ' + esc(res.lessor) + ', a container leasing company rather than a shipping line. A leased box can sail with any
carrier, ' + 'so the number alone does not say who is moving it — use the universal lookup below, or check your bill of lading for the
line.'; target = FALLBACK; } else { who = 'We do not have ' + esc(res.prefix) + ' in our prefix list. The number itself is valid, ' +
'so the universal lookup below will route it to the right line.'; target = FALLBACK; } /* Always offer the universal lookups as well as
the carrier. A carrier site can be down, or simply not show a box that has not reached its network yet, and a dead end at that point
is what generates a support email. */ var alts = ''; for (var i = 0; i < FALLBACKS.length; i++) { var f = FALLBACKS[i]; if (target !==
FALLBACK && i === 0) { /* keep order, still show */ } if (f.url === target.url) { continue; } alts += '

```

- ' + esc(f.name) + ' — ' + esc(f.note) + '

```

'; } box.innerHTML = '

```

```

' + '

```

```

' + esc(pretty) + '

```

```

' + '

```

```

Check digit valid. ' + who + '

```

```

' + '

```

```

' + 'Track on ' + esc(target.name) + " " + '

```

```

' + '

```

```

' + (alts ? '

```

No result there? These free lookups cover the same box from different data sources:

```
' + alts + '
': ') + '
'; /* Copy the number so the carrier's own search box is one paste away. Deliberately not a deep link: these carrier sites are SPAs
whose query parameters change without notice, and a link that quietly stops prefilling looks like a broken tracker. */ var note =
box.querySelector('[data-copy]'); if (navigator.clipboard && navigator.clipboard.writeText) {
navigator.clipboard.writeText(res.num).then(function () { note.textContent = res.num + ' copied — paste it into the tracking box
that opens.'; }, function () { note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; }); } else {
note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; } } function wire(root) { var input =
root.querySelector('.cof-ot-input'); var btn = root.querySelector('.cof-ot-btn'); var box = root.querySelector('.cof-ot-out'); if (!input ||
!btn || !box) return; function go() { var num = normalize(input.value); if (!num) { input.focus(); return; } render(box,
analyze(num)); } btn.addEventListener('click', go); input.addEventListener('keydown', function (e) { if (e.key === 'Enter') {
e.preventDefault(); go(); } }); } function init() { var nodes = document.querySelectorAll('.cof-ot'); for (var i = 0; i < nodes.length;
i++) { wire(nodes[i]); } } if (document.readyState === 'loading') { document.addEventListener('DOMContentLoaded', init); } else
{ init(); } }();
```

Track your container to Italy

Ocean cargo is tracked by container number, not by a parcel barcode. Enter yours below: we check it is a valid number, identify the line that owns it, and take you straight to that line's tracking page for this ocean service.

Container number

A container number is four letters and seven digits, for example MSKU6090510. The last digit is a check digit, so a typo can be caught here rather than by an empty result on the carrier's site. We validate it in your browser — the number is not sent to us or to anyone else.

Additional Information

What This Rate Covers — and What It Does Not

The Shanghai to Gioia Tauro rate is ocean freight, port to port, for one full container. Origin haulage to Shanghai, export declaration, destination clearance, duty and tax for Italy, and delivery beyond the Gioia Tauro terminal all sit outside it and are quoted on request. That split is normal for FCL, and it is why a port-to-port figure should never be compared directly against a door-to-door one.

- Priced per box in USD for 20GP and 40HQ, not per KG or per CBM — utilization is yours to optimize
- Transit 26–34 days port to port port to port on Shanghai to Gioia Tauro, subject to the sailing booked
- Heavy and out-of-gauge cargo is core traffic here: machinery, steel, stone, building materials, project pieces
- Cut-off and free time attach to the specific sailing; demurrage begins the day free time expires
- Reefer, dangerous goods and out-of-gauge are priced case by case rather than from the card

- Clearance at destination is handled by the national EU customs authority; the consignee must be registered to import
- Destination conformity for Italy: CE marking + IOSS for low-value parcels

Utilization is where the real saving sits on this lane. The rate is per box, so every CBM you leave empty is money already spent — which is why it is worth planning the load before booking rather than after. On the compliance side, the national EU customs authority assesses against your declaration, so the packing list and the commercial invoice need to agree with each other and with the cargo.

Every shipment needs a commercial invoice and a packing list that agree with each other, plus destination certification where the commodity requires it. The most common cause of delay we see is not the freight at all — it is a declared value or a goods description that does not match what is in the cartons, which turns a routine clearance into an inspection.

Where these numbers come from

Duty and tax figures on this page are planning estimates. The binding assessment is made by the national EU customs authority against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

Most landed-cost surprises trace back to classification rather than freight. [the WCO Harmonized System](#) defines the heading structure every customs administration builds on, and [ITC Market Access Map](#) will show you the duty a given heading attracts in this destination.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

For a wider view of how importing into Italy actually works — documentation norms, inspection behavior, the paperwork that tends to hold shipments — the [U.S. ITA guide to Italy customs regulations](#) is a useful independent read alongside our own lane notes.

China to Italy — Shipping Reference Data

Main sea gateways	Rotterdam, Antwerp, Hamburg
Destination customs authority	the national EU customs authority
De-minimis / duty-free threshold	EUR 150
Import tax & duty regime	Import VAT 17–27%; duty 0–12% by TARIC
Local currency	EUR
Typical clearance / dwell time	3–6 days
Peak / busy season	Sep–Nov
Conformity & certification	CE marking + IOSS for low-value parcels

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Free 3D Loading Tools for This Sea Route

This page covers a Sea freight service from China to Italy. Use the matching tool below to plan your cargo before requesting a quote.

3D Container Loading Planner

Sea freight to Italy prices by CBM or container — plan your 20GP/40GP/40HQ loading in 3D, compare utilization, and see exactly how many cartons fit before you commit to a booking.

[Open Container Planner →](#)

Italy Sea Freight Checklist

- Ask whether the quote includes destination port charges in Italy or only ocean freight.
- Declare accurate gross weight — VGM misdeclaration delays vessels and triggers fines.
- Photograph the container number, seal, and loading process for insurance evidence.
- Check pallet vs floor-loading: floor loading typically fits 8-12% more cartons per container.

Frequently Asked Questions

How long does Sea FCL Port-to-Port from China to Italy take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 3–6 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Italy?

Clearance is handled by the national EU customs authority. The regime is: Import VAT 17–27%; duty 0–12% by TARIC, with a de-minimis position of EUR 150. Under DDP these are pre-paid, so nothing is collected on arrival.

Can you ship special cargo (batteries, branded goods) to Italy?

Yes — battery goods by sea follow UN3480/UN3481 rules with an MSDS; we prepare the dangerous-goods paperwork as part of DDP into Rotterdam, Antwerp, Hamburg. Surcharges apply.

What does DDP shipping to Italy include on this route?

DDP means one price covering freight, the duty/tax owed to the national EU customs authority, and last-mile delivery to your door in Italy. There are no surprise charges at destination.

Which ports or airports does this route use into Italy?

Sea cargo to Italy clears through Rotterdam, Antwerp, Hamburg; air freight clears via the main gateway airport. We route through whichever gateway gives the fastest onward delivery to your address and build it into the DDP price.

How is the shipping cost on this route calculated?

We compare actual gross weight against volumetric weight ($L \times W \times H \div 6000$) and charge the greater, rounded up to the next kilogram, then apply the per-KG rate shown in the table above.

Shipping Italy cargo by industry

This rate is for the lane. What decides whether the cargo arrives intact is the commodity — how it prices, how it must be packed and loaded, and which compliance step holds it at the border. These guides cover that per industry.
