Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Turkey is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Service Details

Shanghai → Istanbul Container Shipping

Shanghai to Istanbul container shipping, priced per box rather than per CBM. This is the lane to book when the cargo fills a container or when it should not share one: machinery, stone, steel, building materials and project pieces all move better as FCL because nothing else is loaded around them. Plan on 26–34 days port to port port to port.

Port-to-port means exactly that: the rate ends at the Istanbul terminal gate. Typical dwell at destination runs 3–8 days before the box is available for collection, and that window sits outside the transit figure above. Origin haulage, export declaration, destination clearance, duty and delivery beyond the terminal are all quoted separately, so ask for a door figure if that is what you are comparing against.

Rate on application. We move containers on this lane but do not publish a standing figure for it, and we would rather quote it than print a number we cannot hold. Send us the commodity, box type and required ETD and we will come back with the allocation price.

Rate by Container Type

- **20GP** — quoted on request for the current sailing
- **40HQ** — quoted on request for the current sailing

We move sea freight cargo for Turkey through [Ambarlı \(Istanbul\)](#), [Mersin](#) and [Izmir \(Aliağa\)](#). The quoted rate covers the ocean leg to whichever of those the vessel calls at; the difference between them shows up in the trucking cost beyond the quay, which is why it pays to name the delivery city when you ask for a quote rather than just the country.

Inland coverage matters more than the port rate for most consignees. We deliver to [Kocaeli](#), [Bursa](#), [Izmir](#), [Konya](#) and [Istanbul](#) and beyond, and the guide for each sets out its arrival gateway, the inland days to add to the transit quoted here, and the documentation the local office actually asks for. You can browse [all Turkey destinations we cover](#), 10 destinations in total.

Track your shipment

Enter your tracking number below

Powered by 17TRACK — supports 2,000+ carriers worldwide

```

'; return; } var pretty = res.num.substring(0,4) + ' ' + res.num.substring(4,10) + ' ' + res.num.substring(10); var who, target; if
(res.carrier) { who = 'The ' + esc(res.prefix) + ' prefix belongs to ' + esc(res.carrier.name) + ', so this box is theirs. Their
tracking page is the authoritative source for it.'; target = res.carrier; } else if (res.lessor) { who = 'The ' + esc(res.prefix) + '
prefix belongs to ' + esc(res.lessor) + ', a container leasing company rather than a shipping line. A leased box can sail with any
carrier, ' + 'so the number alone does not say who is moving it — use the universal lookup below, or check your bill of lading for the
line.'; target = FALLBACK; } else { who = 'We do not have ' + esc(res.prefix) + ' in our prefix list. The number itself is valid, ' +
'so the universal lookup below will route it to the right line.'; target = FALLBACK; } /* Always offer the universal lookups as well as
the carrier. A carrier site can be down, or simply not show a box that has not reached its network yet, and a dead end at that point
is what generates a support email. */ var alts = ''; for (var i = 0; i < FALLBACKS.length; i++) { var f = FALLBACKS[i]; if (target !==
FALLBACK && i === 0) { /* keep order, still show */ } if (f.url === target.url) { continue; } alts += '

```

- ' + esc(f.name) + ' — ' + esc(f.note) + '

```

'; } box.innerHTML = '

```

```

' + '

```

```

' + esc(pretty) + '

```

```

' + '

```

```

Check digit valid. ' + who + '

```

```

' + '

```

```

' + 'Track on ' + esc(target.name) + " " + '

```

```

' + '

```

```

' + (alts ? '

```

No result there? These free lookups cover the same box from different data sources:

```
' + alts + '
': ') + '
'; /* Copy the number so the carrier's own search box is one paste away. Deliberately not a deep link: these carrier sites are SPAs
whose query parameters change without notice, and a link that quietly stops prefilling looks like a broken tracker. */ var note =
box.querySelector('[data-copy]'); if (navigator.clipboard && navigator.clipboard.writeText) {
navigator.clipboard.writeText(res.num).then(function () { note.textContent = res.num + ' copied — paste it into the tracking box
that opens.'; }, function () { note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; }); } else {
note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; } } function wire(root) { var input =
root.querySelector('.cof-ot-input'); var btn = root.querySelector('.cof-ot-btn'); var box = root.querySelector('.cof-ot-out'); if (!input ||
!btn || !box) return; function go() { var num = normalize(input.value); if (!num) { input.focus(); return; } render(box,
analyze(num)); } btn.addEventListener('click', go); input.addEventListener('keydown', function (e) { if (e.key === 'Enter') {
e.preventDefault(); go(); } }); } function init() { var nodes = document.querySelectorAll('.cof-ot'); for (var i = 0; i < nodes.length;
i++) { wire(nodes[i]); } } if (document.readyState === 'loading') { document.addEventListener('DOMContentLoaded', init); } else
{ init(); } }());
```

Track your container to Turkey

Ocean cargo is tracked by container number, not by a parcel barcode. Enter yours below: we check it is a valid number, identify the line that owns it, and take you straight to that line's tracking page for this ocean service.

Container number

A container number is four letters and seven digits, for example MSKU6090510. The last digit is a check digit, so a typo can be caught here rather than by an empty result on the carrier's site. We validate it in your browser — the number is not sent to us or to anyone else.

Additional Information

Scope, Exclusions and What to Check Before Booking

This is a port-to-port FCL rate for Shanghai to Istanbul. It covers ocean freight for one container and stops at the Istanbul terminal gate. Everything either side of that — trucking to Shanghai, customs at both ends, duty and tax for Turkey, inland delivery — is quoted on request rather than bundled, which keeps the freight number comparable between carriers.

- Priced per box in USD for 20GP and 40HQ, not per KG or per CBM — utilization is yours to optimize
- Transit 26–34 days port to port port to port on Shanghai to Istanbul, subject to the sailing booked
- Heavy and out-of-gauge cargo is core traffic here: machinery, steel, stone, building materials, project pieces
- Cut-off and free time attach to the specific sailing; demurrage begins the day free time expires
- Reefer, dangerous goods and out-of-gauge are priced case by case rather than from the card
- Clearance at destination is handled by Ministry of Trade — Turkish Customs; the consignee must be registered to import

- Destination conformity for Turkey: CE marking under EU-aligned rules; TSE conformity and TAREKS import inspection for regulated goods

The most expensive mistake on a Shanghai to Istanbul booking is not the freight rate, it is free time. Demurrage and detention start counting at the Istanbul terminal whether or not your consignee is ready, and on a bad week they can exceed the ocean freight itself. Confirm how many free days the booking carries before you fix a collection date.

Before you book, confirm two things with your consignee: that they are registered to import into Turkey, and that whoever is named as importer of record accepts the duty liability. Those are dull questions and they are also the two that most often surface only after the cargo has already sailed.

Where these numbers come from

Duty and tax figures on this page are planning estimates. The binding assessment is made by Ministry of Trade — Turkish Customs against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

If you want to sanity-check a duty figure yourself, start from the heading rather than the product name — [the WCO Harmonized System](#) is the underlying nomenclature, and [the WTO Tariff & Trade Data portal](#) holds the applied rates by country pair.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

On the origin side, export declaration and any commodity inspection requirement fall under [China Customs \(GACC\)](#); we handle that filing as part of the service, but the requirement is theirs, not ours.

If this is your first shipment into Turkey, the [Turkey Country Commercial Guide](#) covers the practical import environment in more depth than a rate page reasonably can, and it is written by a party with no stake in your booking.

China to Turkey — Shipping Reference Data

Main sea gateways	Ambarlı (Istanbul), Mersin, Izmir (Aliağa)
Destination customs authority	Ministry of Trade — Turkish Customs
De-minimis / duty-free threshold	EUR 30 on personal parcels, with a simplified flat rate applied to low-value consignments
Import tax & duty regime	VAT 20%; the EU-Turkey customs union tariff applies, plus additional and anti-dumping duties on many Chinese-origin textiles, footwear and electronics
Local currency	TRY
Typical clearance / dwell time	3–8 days
Peak / busy season	Sep–Nov
Conformity & certification	CE marking under EU-aligned rules; TSE conformity and TAREKS import inspection for regulated goods

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

Free 3D Loading Tools for This Sea Route

This page covers a Sea freight service from China to Turkey. Use the matching tool below to plan your cargo before requesting a quote.

3D Container Loading Planner

Wondering whether your cargo fills a 20GP or needs a 40HQ for this Turkey route? The 3D container planner simulates cartons, crates, pallets, and even mixed box sizes in one container.

[Open Container Planner →](#)

Turkey Sea Freight Checklist

- Photograph the container number, seal, and loading process for insurance evidence.
- Ask whether the quote includes destination port charges in Turkey or only ocean freight.
- Reserve loading space 5-7 days before the sailing cut-off for this route during peak season.
- Declare accurate gross weight — VGM misdeclaration delays vessels and triggers fines.

Frequently Asked Questions

How long does Sea FCL Port-to-Port from China to Turkey take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 3–8 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Turkey?

Clearance is handled by Ministry of Trade — Turkish Customs. The regime is: VAT 20%; the EU-Turkey customs union tariff applies, plus additional and anti-dumping duties on many Chinese-origin textiles, footwear and electronics, with a de-minimis position of EUR 30 on personal parcels, with a simplified flat rate applied to low-value consignments. Under DDP these are pre-paid, so nothing is collected on arrival.

What does DDP shipping to Turkey include on this route?

DDP means one price covering freight, the duty/tax owed to Ministry of Trade — Turkish Customs, and last-mile delivery to your door in Turkey. There are no surprise charges at destination.

In what currency is this route priced and paid?

Freight is quoted and invoiced in USD; the destination-side currency is TRY. Payment is typically due before departure, and DDP means you settle the full landed cost once.

Can you ship special cargo (batteries, branded goods) to Turkey?

Yes — battery goods by sea follow UN3480/UN3481 rules with an MSDS; we prepare the dangerous-goods paperwork as part of DDP into Ambarlı (Istanbul), Mersin, Izmir (Aliağa). Surcharges apply.

What documents are required for customs clearance in Turkey?

Ministry of Trade — Turkish Customs typically requires a commercial invoice with HS codes, a packing list, the bill of lading/air waybill, a certificate of origin (may lower duty), and any product certification (CE marking under EU-aligned rules; TSE conformity and TAREKS import inspection for regulated goods). We file these under DDP.

Inland Delivery Coverage — Turkey

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.

Note — these are reference guides, not quotes. The city pages describe routing, gateways and clearance for each destination. They do not carry rate tables. For pricing to any city listed here, use the rate table on this page or ask us for a quote.
