Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Iraq is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

Responsibility for each shipment stage under each Incoterms rule

Term	1 Loading on truck	2 Export customs declaration	3 Carriage to port of export	4 Unloading at port of export	5 Loading on vessel / aircraft	6 Main carriage	7 Cargo insurance	8 Unloading at port of import	9 Loading on truck at import	10 Carriage to destination

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Service Details

Shanghai → Umm Qasr Container Shipping

Full-container sea freight from China to Iraq, Shanghai to Umm Qasr. A whole box is the right structure once your volume passes roughly 15 CBM, or as soon as the cargo is heavy, oversized or awkward to consolidate with anyone else's — below that threshold LCL usually wins on cost, above it FCL wins on both cost per CBM and handling risk. Transit runs 18–26 days port to port port to port.

Port-to-port means exactly that: the rate ends at the Umm Qasr terminal gate. Typical dwell at destination runs 7–15 days before the box is available for collection, and that window sits outside the transit figure above. Origin haulage, export declaration, destination clearance, duty and delivery beyond the terminal are all quoted separately, so ask for a door figure if that is what you are comparing against.

Rate on application. We move containers on this lane but do not publish a standing figure for it, and we would rather quote it than print a number we cannot hold. Send us the commodity, box type and required ETD and we will come back with the allocation price.

Rate by Container Type

- **20GP** — quoted on request for the current sailing
- **40HQ** — quoted on request for the current sailing

Discharge for Iraq on this service is at [Umm Qasr](#). Transit time in the rate table is measured to the port, not to the door: the inland days on top depend on which gateway the box clears through and how far inland the delivery address sits.

If your delivery address is inland rather than at the port, the destination guides are the useful read: [Sulaymaniyah](#), [Mosul](#), [Baghdad](#), [Basra](#) and [Erbil](#) each document their clearing gateway, typical inland transit and local customs behavior, none of which is visible in a rate table. See [all Iraq destinations we cover](#) for the other 2.

Track your shipment

Enter your tracking number below

Powered by 17TRACK — supports 2,000+ carriers worldwide

```

'; return; } var pretty = res.num.substring(0,4) + ' ' + res.num.substring(4,10) + ' ' + res.num.substring(10); var who, target; if
(res.carrier) { who = 'The ' + esc(res.prefix) + ' prefix belongs to ' + esc(res.carrier.name) + ', so this box is theirs. Their
tracking page is the authoritative source for it.'; target = res.carrier; } else if (res.lessor) { who = 'The ' + esc(res.prefix) + '
prefix belongs to ' + esc(res.lessor) + ', a container leasing company rather than a shipping line. A leased box can sail with any
carrier, ' + 'so the number alone does not say who is moving it — use the universal lookup below, or check your bill of lading for the
line.'; target = FALLBACK; } else { who = 'We do not have ' + esc(res.prefix) + ' in our prefix list. The number itself is valid, ' +
'so the universal lookup below will route it to the right line.'; target = FALLBACK; } /* Always offer the universal lookups as well as
the carrier. A carrier site can be down, or simply not show a box that has not reached its network yet, and a dead end at that point
is what generates a support email. */ var alts = ''; for (var i = 0; i < FALLBACKS.length; i++) { var f = FALLBACKS[i]; if (target !==
FALLBACK && i === 0) { /* keep order, still show */ } if (f.url === target.url) { continue; } alts += '

```

- ' + esc(f.name) + ' — ' + esc(f.note) + '

```

'; } box.innerHTML = '

```

```

' + '

```

```

' + esc(pretty) + '

```

```

' + '

```

```

Check digit valid. ' + who + '

```

```

' + '

```

```

' + 'Track on ' + esc(target.name) + " " + '

```

```

' + '

```

```

' + (alts ? '

```

No result there? These free lookups cover the same box from different data sources:

```
' + alts + '
': ') + '
'; /* Copy the number so the carrier's own search box is one paste away. Deliberately not a deep link: these carrier sites are SPAs
whose query parameters change without notice, and a link that quietly stops prefilling looks like a broken tracker. */ var note =
box.querySelector('[data-copy]'); if (navigator.clipboard && navigator.clipboard.writeText) {
navigator.clipboard.writeText(res.num).then(function () { note.textContent = res.num + ' copied — paste it into the tracking box
that opens.'; }, function () { note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; }); } else {
note.textContent = 'Copy ' + res.num + ' and paste it into the tracking box that opens.'; } } function wire(root) { var input =
root.querySelector('.cof-ot-input'); var btn = root.querySelector('.cof-ot-btn'); var box = root.querySelector('.cof-ot-out'); if (!input ||
!btn || !box) return; function go() { var num = normalize(input.value); if (!num) { input.focus(); return; } render(box,
analyze(num)); } btn.addEventListener('click', go); input.addEventListener('keydown', function (e) { if (e.key === 'Enter') {
e.preventDefault(); go(); } }); } function init() { var nodes = document.querySelectorAll('.cof-ot'); for (var i = 0; i < nodes.length;
i++) { wire(nodes[i]); } } if (document.readyState === 'loading') { document.addEventListener('DOMContentLoaded', init); } else
{ init(); } }());
```

Track your container to Iraq

Ocean cargo is tracked by container number, not by a parcel barcode. Enter yours below: we check it is a valid number, identify the line that owns it, and take you straight to that line's tracking page for this ocean service.

Container number

A container number is four letters and seven digits, for example MSKU6090510. The last digit is a check digit, so a typo can be caught here rather than by an empty result on the carrier's site. We validate it in your browser — the number is not sent to us or to anyone else.

Additional Information

Booking Conditions and Destination Requirements

What you are buying on Shanghai to Umm Qasr is the ocean leg and nothing else: the box on the vessel, from quay to quay. Pre-carriage in China, clearance into Iraq, duty and tax, and the final delivery run beyond Umm Qasr are each priced separately. Ask for the door figure if you want to compare this against a DDP quote, because the two are not the same number.

- Priced per box in USD for 20GP and 40HQ, not per KG or per CBM — utilization is yours to optimize
- Transit 18–26 days port to port port to port on Shanghai to Umm Qasr, subject to the sailing booked
- Heavy and out-of-gauge cargo is core traffic here: machinery, steel, stone, building materials, project pieces
- Cut-off and free time attach to the specific sailing; demurrage begins the day free time expires
- Reefer, dangerous goods and out-of-gauge are priced case by case rather than from the card
- Clearance at destination is handled by General Commission of Customs, Iraq; the consignee must be registered to import

- Destination conformity for Iraq: Certificate of Conformity (COC) issued pre-shipment under the Iraqi conformity program is mandatory for most goods

Two things decide whether an FCL booking runs cleanly. The first is container choice: a 40HQ carries roughly 76 CBM against a 20GP's 33, so where the cargo cubes out rather than weighs out, the bigger box is usually cheaper per unit even though it costs more per booking. The second is documentation — the packing list has to match what is physically inside, because General Commission of Customs, Iraq inspects against the declaration rather than against intent.

Paperwork closes more shipments into Iraq late than freight does. Invoice, packing list and any certificate of origin have to describe the same goods at the same value, and the description has to be specific enough to classify — 'electronic parts' is not a description, it is an invitation to be examined.

Where these numbers come from

Duty and tax figures on this page are planning estimates. The binding assessment is made by General Commission of Customs, Iraq against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

Classification drives everything downstream: the same carton can attract very different duty depending on the heading it lands in, and the structure those headings come from is [the World Customs Organization Harmonized System](#). If your product sits near a boundary between two headings, resolve it before shipping rather than at the border.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

If this is your first shipment into Iraq, the [Iraq Country Commercial Guide](#) covers the practical import environment in more depth than a rate page reasonably can, and it is written by a party with no stake in your booking.

China to Iraq — Shipping Reference Data

Main sea gateways	Umm Qasr
Destination customs authority	General Commission of Customs, Iraq
De-minimis / duty-free threshold	No practical de-minimis
Import tax & duty regime	Customs duty 0.5–30% plus a reconstruction levy; regional variations apply in the Kurdistan Region
Local currency	IQD
Typical clearance / dwell time	7–15 days
Peak / busy season	Sep–Nov
Conformity & certification	Certificate of Conformity (COC) issued pre-shipment under the Iraqi conformity program is mandatory for most goods

Thresholds and duty bands are buyer-planning references, not formal customs rulings — confirm the exact HS-code rate for your goods before shipping.

3D Container Loading Planner

Maximize every CBM on this route: load your carton list into the 3D container planner, check space and payload utilization, and download the loading plan for your forwarder.

[Open Container Planner →](#)

Iraq Sea Freight Checklist

- Verify the receiver's customs import capability in Iraq for DDP terms before booking.
- Check pallet vs floor-loading: floor loading typically fits 8-12% more cartons per container.
- Ask whether the quote includes destination port charges in Iraq or only ocean freight.
- Declare accurate gross weight — VGM misdeclaration delays vessels and triggers fines.

Frequently Asked Questions

How long does Sea FCL Port-to-Port from China to Iraq take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 7–15 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Iraq?

Clearance is handled by General Commission of Customs, Iraq. The regime is: Customs duty 0.5–30% plus a reconstruction levy; regional variations apply in the Kurdistan Region, with a de-minimis position of No practical de-minimis. Under DDP these are pre-paid, so nothing is collected on arrival.

What does DDP shipping to Iraq include on this route?

DDP means one price covering freight, the duty/tax owed to General Commission of Customs, Iraq, and last-mile delivery to your door in Iraq. There are no surprise charges at destination.

In what currency is this route priced and paid?

Freight is quoted and invoiced in USD; the destination-side currency is IQD. Payment is typically due before departure, and DDP means you settle the full landed cost once.

Can you ship special cargo (batteries, branded goods) to Iraq?

Yes — battery goods by sea follow UN3480/UN3481 rules with an MSDS; we prepare the dangerous-goods paperwork as part of DDP into Umm Qasr. Surcharges apply.

What documents are required for customs clearance in Iraq?

General Commission of Customs, Iraq typically requires a commercial invoice with HS codes, a packing list, the bill of lading/air waybill, a certificate of origin (may lower duty), and any product certification (Certificate of Conformity (COC) issued pre-shipment under the Iraqi conformity program is mandatory for most goods). We file these under DDP.

Inland Delivery Coverage — Iraq

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.

Note — these are reference guides, not quotes. The city pages describe routing, gateways and clearance for each destination. They do not carry rate tables. For pricing to any city listed here, use the rate table on this page or ask us for a quote.
