Trade Terms Explained — Who Pays for What

The rate above is quoted on one specific trade term. Change the term and you change how much of the journey to Peru is already inside the price. The table below maps the eleven common Incoterms® against the twelve cost stages of a door-to-door shipment, so you can see exactly where our responsibility ends and yours begins.

- **Seller** — Cost and arrangement sit with the seller / shipper.
- **Buyer** — Cost and arrangement sit with the buyer / consignee.
- **Negotiable** — Not fixed by the rule — agree it in the contract.

EXW Ex Works

Buyer takes over at the seller's door and carries every cost from there. Lowest quoted price, highest buyer workload.

FCA Free Carrier

Seller clears the goods for export and hands them to the carrier the buyer nominated.

FAS Free Alongside Ship

Sea and inland waterway only. Seller delivers alongside the vessel; loading is on the buyer.

FOB Free On Board

Sea and inland waterway only. Risk passes once the goods are on board. The most common buying term.

CFR Cost and Freight

Seller pays the main carriage but carries no insurance obligation; risk still passes on loading.

CIF Cost, Insurance and Freight

As CFR, plus the seller must buy and pay for cargo insurance (minimum cover unless you agree more).

CPT Carriage Paid To

Any mode. Seller pays carriage through to the named destination; insurance is not obligatory.

CIP Carriage and Insurance Paid

As CPT, plus the seller must insure the cargo through to the named destination.

DAT Delivered At Terminal (DPU)

Seller delivers unloaded at the named terminal. Renamed DPU (Delivered at Place Unloaded) in Incoterms® 2020.

DAP Delivered At Place

Seller delivers to your address ready for unloading; import clearance and duty stay with the buyer.

DDP Delivered Duty Paid

Seller carries everything through to your door, duty and tax included. Highest quoted price, least buyer workload.

Two things worth flagging. Under CIF and CIP the seller is obliged to buy cargo insurance and pay the premium; under every other term insurance is optional, and we recommend buyers arrange their own cover so a loss or damage in transit is recoverable. And this table is a working summary for planning purposes — the binding definitions are the ones published by the International Chamber of Commerce in the Incoterms® rules, so confirm the exact term wording in your sales contract before you ship.

Yantian → Paita Container Shipping

Yantian to Paita container shipping, priced per box rather than per CBM. This is the lane to book when the cargo fills a container or when it should not share one: machinery, stone, steel, building materials and project pieces all move better as FCL because nothing else is loaded around them. Plan on 28–38 days port to port port to port.

Port-to-port means exactly that: the rate ends at the Paita terminal gate. Typical dwell at destination runs 3–8 days before the box is available for collection, and that window sits outside the transit figure above. Origin haulage, export declaration, destination clearance, duty and delivery beyond the terminal are all quoted separately, so ask for a door figure if that is what you are comparing against.

Indicative rate. The figures below are benchmarked against current bookings on this lane group. They are a planning reference, not a firm offer — the booking rate is confirmed against the specific sailing when you enquire.

Rate by Container Type

- **40NOR** — USD 4,800 per container
- **40HQ** — USD 6,200 per container

We move sea freight cargo for Peru through [Callao](#), [Chancay](#) and [Paita](#). The quoted rate covers the ocean leg to whichever of those the vessel calls at; the difference between them shows up in the trucking cost beyond the quay, which is why it pays to name the delivery city when you ask for a quote rather than just the country.

Inland coverage matters more than the port rate for most consignees. We deliver to [Chiclayo](#), [Chancay](#), [Arequipa](#), [Trujillo](#) and [Callao](#) and beyond, and the guide for each sets out its arrival gateway, the inland days to add to the transit quoted here, and the documentation the local office actually asks for. You can browse [all Peru destinations we cover](#), 8 destinations in total.

Track your container to Peru

Ocean cargo is tracked by container number, not by a parcel barcode. Enter yours below: we check it is a valid number, identify the line that owns it, and take you straight to that line's tracking page for this ocean service.

Container number

A container number is four letters and seven digits, for example MSKU6090510. The last digit is a check digit, so a typo can be caught here rather than by an empty result on the carrier's site. We validate it in your browser — the number is not sent to us or to anyone else.

Additional Information

Scope, Exclusions and What to Check Before Booking

This is a port-to-port FCL rate for Yantian to Paita. It covers ocean freight for one container and stops at the Paita terminal gate. Everything either side of that — trucking to Yantian, customs at both ends, duty and tax for Peru, inland delivery — is quoted on request rather than bundled, which keeps the freight number comparable between carriers.

- Priced per box in USD for 40NOR and 40HQ, not per KG or per CBM — utilization is yours to optimize
- Transit 28–38 days port to port port to port on Yantian to Paita, subject to the sailing booked
- Heavy and out-of-gauge cargo is core traffic here: machinery, steel, stone, building materials, project pieces
- Cut-off and free time attach to the specific sailing; demurrage begins the day free time expires
- Reefer, dangerous goods and out-of-gauge are priced case by case rather than from the card

- Clearance at destination is handled by SUNAT — Superintendencia Nacional de Aduanas; the consignee must be registered to import
- Destination conformity for Peru: Certificate of origin for FTA preference; DIGEMID or DIGESA registration for health and food products

The most expensive mistake on a Yantian to Paita booking is not the freight rate, it is free time. Demurrage and detention start counting at the Paita terminal whether or not your consignee is ready, and on a bad week they can exceed the ocean freight itself. Confirm how many free days the booking carries before you fix a collection date.

Before you book, confirm two things with your consignee: that they are registered to import into Peru, and that whoever is named as importer of record accepts the duty liability. Those are dull questions and they are also the two that most often surface only after the cargo has already sailed.

Where these numbers come from

Duty and tax figures on this page are planning estimates. The binding assessment is made by SUNAT — Superintendencia Nacional de Aduanas against your declared HS code at the time of entry; where the amount is material, verify the current rate through [ITC Market Access Map](#) before committing to an order.

If you want to sanity-check a duty figure yourself, start from the heading rather than the product name — [the WCO Harmonized System](#) is the underlying nomenclature, and [the WTO Tariff & Trade Data portal](#) holds the applied rates by country pair.

For ocean cargo, restricted commodities move under [the IMO's IMDG Code](#), and the container has to be declared and stowed accordingly. Batteries, flammables and corrosives all have a compliant ocean path; what causes rolled bookings is finding out about them after the container is packed.

On the origin side, export declaration and any commodity inspection requirement fall under [China Customs \(GACC\)](#); we handle that filing as part of the service, but the requirement is theirs, not ours.

For a wider view of how importing into Peru actually works — documentation norms, inspection behavior, the paperwork that tends to hold shipments — the [U.S. ITA guide to Peru customs regulations](#) is a useful independent read alongside our own lane notes.

China to Peru — Shipping Reference Data

Main sea gateways	Callao, Chancay, Paita
Destination customs authority	SUNAT — Superintendencia Nacional de Aduanas

Peru Sea Freight Checklist

- Confirm whether your Peru rate is per CBM or per container before comparing quotes.
- Ask whether the quote includes destination port charges in Peru or only ocean freight.
- Verify the receiver's customs import capability in Peru for DDP terms before booking.
- Reserve loading space 5-7 days before the sailing cut-off for this route during peak season.

Frequently Asked Questions

How long does Sea FCL Port-to-Port from China to Peru take?

Sea freight on this route runs about 25–45 calendar days door-to-door, plus roughly 3–8 days of clearance/dwell once it reaches the gateway. All times include customs clearance under DDP terms.

What duties and taxes apply when importing into Peru?

Clearance is handled by SUNAT — Superintendencia Nacional de Aduanas. The regime is: IGV 18%; duty 0–11%, with 0% on most goods under the China–Peru free trade agreement, with a de-minimis position of USD 200 for courier consignments. Under DDP these are pre-paid, so nothing is collected on arrival.

Which ports or airports does this route use into Peru?

Sea cargo to Peru clears through Callao, Chancay, Paita; air freight clears via LIM (Lima Jorge Chávez). We route through whichever gateway gives the fastest onward delivery to your address and build it into the DDP price.

What certification is needed to import into Peru?

For regulated goods, plan for: Certificate of origin for FTA preference; DIGEMID or DIGESA registration for health and food products. Missing conformity paperwork is the most common clearance hold with SUNAT — Superintendencia Nacional de Aduanas, so confirm requirements for your HS code before shipping.

When does capacity tighten on the China–Peru lane?

Space and rates tighten around Sep–Nov, plus the China-side windows of Chinese New Year (Jan/Feb) and Golden Week (early Oct). Book 1–2 weeks earlier in these periods.

Can you ship special cargo (batteries, branded goods) to Peru?

Yes — battery goods by sea follow UN3480/UN3481 rules with an MSDS; we prepare the dangerous-goods paperwork as part of DDP into Callao, Chancay, Paita. Surcharges apply.

Inland Delivery Coverage — Peru

We deliver beyond the arrival gateway. Each city below has its own destination guide covering the gateway it clears through, typical inland transit time and the local customs picture.
